7<sup>th</sup> Fresh Blood for FreshWater Conference

Bilbao (Spain), November 25<sup>th</sup>-28<sup>th</sup>, 2020

Keep up with the latest news about the **FBFW20**

In this second circular you will find extended information about...

- Venue of the conference.....2
- Workshops.....3
- Field trip to Artikutza valley.....4
- Preliminary program.....5
- Pre-registration and register payments.....6

## KEY DATES

- 1<sup>st</sup> January-1<sup>st</sup> April 2020 — Pre-registration & Abstract submission
- 15<sup>th</sup> May 2020 — Abstract decision
- 1<sup>st</sup> March-15<sup>th</sup> June 2020 — Early bird registration
- 16<sup>th</sup> June-15<sup>th</sup> September 2020 — Late bird registration

## REGISTRATION FEES\*

- EARLY BIRD — 80 €
- LATE BIRD — 100 €

\* These prices include conference material, coffee breaks and lunches

# Artikutza valley

Artikutza valley is among the best preserved areas in the Cantabrian cornice. In 1919 the municipality of Donostia-San Sebastian acquired this 4000 ha valley in order to guarantee good quality water supply to the town. Since then, Artikutza has been managed in a very conservationist way: only water supplying was allowed in the valley. Due to this management policy, today, Artikutza is almost completely covered with high quality forests and hosts an enormous biodiversity. Nevertheless, Artikutza valley has a black spot called Enobieta Reservoir. It was built in the 1950's to supply drinking water to the province of Gipuzkoa. There is a 42 meter tall dam that stores 1.63 hm<sup>3</sup>. Enobieta Reservoir has been unmanaged since the Añarbe Reservoir was built further downstream in 1976. Structural problems, aggravated by decades of neglect, prompted the municipality of Donostia – San Sebastian to decommission the dam. As far as we know, it is the largest removed dam in the Iberian Peninsula and this offers a unique opportunity to assess the effects of dam removal in one of the best preserved river systems of the Cantabrian cornice. In addition to this, in the afternoon we plan to visit the Albaola shipyard, where whaleboats were constructed with wood extracted from the valley.

**WHEN:** Saturday, 28<sup>th</sup> November

More information about the social program, as well as the prices, timetables and registrations will come out soon

[fbfw2020.weebly.com/](http://fbfw2020.weebly.com/)
